

# Breakables™ Clenz-a-dent<sup>®</sup> Rawhide Dental Chews

## Clenz-a-dent<sup>®</sup> Rawhide Chews

### TECHNICAL SPECIFICATIONS:

Tasty poultry-flavored enzymatic rawhide chews for dogs for clean teeth and fresh breath.

### PROPERTIES:

Breakables™ Clenz-a-dent<sup>®</sup> Rawhide Dental Chews are uniquely designed to break-apart as your dog chews. Shredded pieces of rawhide are compressed, heat-dried, and then enzyme-coated.

Clenz-a-dent<sup>®</sup> Rawhide Chews are made from carefully selected beef hide that is cut into strips, heat-dried, and then enzyme-coated.

All Clenz-a-dent<sup>®</sup> Rawhide products contain ingredients that supply the enzymes glucose oxidase and lactoperoxidase to help maintain the natural antibacterial system in the saliva. The abrasive action of chewing helps keep your dogs teeth clean and breath fresh.

### FEEDING DIRECTIONS:

Give your dog one chew daily. As with any rawhide product, it is recommended to monitor your dog while this product is being chewed. Swallowing a rawhide chew whole can pose a choking hazard to a dog.

This product is intended for intermittent or supplemental feeding only. Keep out of reach of children.

### STORAGE:

Store at room temperature. Do not freeze.

### INGREDIENTS:

Beef Hide, Dextrose, Poultry Digest, Hydrolyzed Corn Protein, Primary Dried Yeast, Potassium Sorbate, Dried Aspergillus Niger Fermentation Extract, Dried Whey Protein Concentrate.

### GUARANTEED ANALYSIS: (per 1 chew)

Crude Protein (min.): 70%

Crude Fat (min.): 1%

Crude Fiber (max.): 8%

Moisture (max.): 14%

### CALORIE CONTENT: (calculated, ME):

2,780 kcal/kg

Calorie content per piece varies by size.
